

The **V20** by Generac® Tower Light is a brand-new lighting tower equipped with 4x300W high efficiency LED lamp floodlights. More than 180 hours of running time and one of the lowest sound pressure level in the industry: only 58 dB(A) @ 7 meters.

V20

Break
the rules

The lighting power of 4x300W LED floodlights is comparable to the one of a traditional 4x1000W Metal Halide lighting set. The **V20** lighting tower is equipped with a low consumption diesel engine and a digital controller specific for lighting towers.

LOW VOLTAGE LED
The LED floodlights installed are powered with 48 Volts. No more high voltages on external cables. Safety as a must!

GENERAC® BRANDED LAMPS
4x300W high efficiency LED floodlights made by Generac® Tower Light.

TOP ACCESSIBILITY
3 doors for a wider access. 2 compass-top doors with «wing» shape provide a complete access to the engine for a safe and convenient maintenance. 1 back door allows the access to the digital control panel.

THE LOWEST NOISE LEVEL!
Innovation means also decreasing the noise level! The **V20** lighting tower emits only 58 dB(A) @ 7 meters.

BRAND-NEW STABILIZERS
The special shape of the adjustable stabilizers allows the operator to level the **V20** in few seconds.

CONTROL UNIT
A digital controller specifically studied for our lighting towers! Now every function of the machine can be managed by only one controller for the best ease of use.

TECHNICAL DATA

V20

Lifting system	-	Hydraulic
Min. dim.	cm	220 x 140 x 244
Max. dim.	cm	220 x 185 x 850
Dry weight	kg	980
Lamps power	W	4 x 300
Lamps type	-	LED
Certified illuminated area	m ²	3,900
Total lumen (Tc=25°)	Lm	153,000
Mast rotation	°	340
Certified wind speed resistance	km/h	110
Tank capacity	liter	100
Engine model	-	Kubota Z482 2 cyl. @1500 rpm
Engine cooling	-	Water
Alternator	-	5 kVA - 230 V
Outlet socket	-	2 kVA - 16 A - 230 V
Inlet socket	-	16 A - 230 V
Running time	h	180
Avg. sound pressure level	dB(A) @ 7m	58
Trailers available	-	Road trailer or site-tow trailer
